1. Fire Alarm Systems for Inspectors

This class is developed and presented for industry professionals who are required to attend and receive recertification credit for licensure. This class will help the student have a deeper understanding of Fire Alarm systems. This class will review where systems are required, installation and maintenance and proper inspection of the systems. Topics include how systems function, help save lives, and benefit the fire service. This class qualifies for the six (6) hours continuing education required for State Certified Fire Alarm Inspectors.

This class will be offered Friday and repeated on Saturday.

Richard Peddicord with the Kentucky State Fire Marshal's Office will once again lead this session.

The Green River Firefighters Association greatly appreciates the continued support of the Kentucky Fire Marshal's Office.
