16. Fire/EMS: Active Shooter Response Training

Fire Departments are increasingly called upon to assist in complex and large Criminal Mass Casualty Incidents (C-MCI). These events are unpredictable and progress quickly, leaving first responders in a position of need for training to address responses to these unique situations. C-MCI have led to specific recommendations & guidelines for emergency response personnel to improve functionality and interoperability between Fire/EMS and law enforcement agencies. The Kentucky Fire Commission invites you to engage in awareness level training for better management of pre-incident planning and how to best mitigate casualties in a C-MCI situation.

This class will be offered on Friday afternoon.

This class will be instructed by the staff of the Kentucky Fire Commission and State Fire Rescue Training.
