

112 ERDI Full Face Mask/**Dry Suit Diving Operations Certification**

This Full Face Mask course provides the skills and knowledge for the PSD diver to utilize full face masks for emergency response diving. While basic full face mask topics and skills are presented, other topics and skills include encapsulation, communications with a full face mask, selecting proper masks for emergency response diving and decontamination procedures.

Dry suit OPS course is designed to develop the knowledge and skills that are necessary for dry suit diving operations in emergency response diving. In addition to the fundamental skills of dry suit diving, other important topics include encapsulation, contaminated environments, protecting potable water supplies and decontamination procedures.

Class Room and Water Skills required for certification.

Minimum 12 students, maximum 25

Open to all divers with "open water" certification by a recognized dive training agency. Students must show proof of certification (c-card) at the beginning of the class.

**All students are required to bring SCUBA mask and SCUBA System.
\$40.00 certification Fee to be paid on day of class**

Dry Suits and Full Face Mask for students will be provided by DUI and Interspiro. However, you may bring your own if you have them.

Lead Instructors: Buck Buchanon, Senior ERDI Instructor Trainer Jeff Stigall, ERDI Instructor, Regional Manager Interspiro Fire/Dive Rescue.
