

INTEROPERABLE COMMUNICATIONS

LOCATION:

Area 3 Training Center
Calhoun, KY

SPECIFICATIONS:

Length	33'
Width	8 ½'
Height	11' 9"
Weight	7,880 lbs

OBJECTIVES:

The Command Trailer is set up to operate as a mobile command center for the following types of events:

- 1) natural and manmade disasters and emergencies
- 2) public and private events where communication, coordination and command operations may be needed

This unit is specifically designed to support the Emergency Support Function #4.

CAPABILITIES:

The Command center is equipped with 3 VHF radios, 3 UHF radios, 1-800 Mhz radio and 1 amateur radio. These radios are programmable and are connected to bridging hardware to allow cross-band communications. There is a bank of 12 portable radios that can be used to support your event's activities. There also is a MITOC unit on each trailer to provide internet and IP telephone services. There are three workstations each equipped with laptop computers and a printer. The trailer has a mounted weather station and digital television capabilities to view local area broadcast stations. There is a high-resolution camera on the trailer with remote controls inside. The rear of the trailer has the ability to be a conference room as well as a mini-bunk room.

The trailer has a 5 Kw Honda Generator/Inverter that powers all of the equipment on the trailer. There is a heater and an air conditioner unit on the trailer to keep the trailer in comfortable working conditions during any season.
