

# HISTORY/RECRUITMENT Center

## LOCATION:

Area 3 Training Center  
Calhoun, KY

## SPECIFICATIONS:

Length	46'
Width	8 ½'
Height	12' 9"
Weight	14,100 lbs

## OBJECTIVES:

- The Firefighter History & Recruitment Center is designed to have a dual mission.
- 1) illustrate the history of our firefighters and the fire service of Kentucky
  - 2) recruit new members into the fire service

## CAPABILITIES:

The Firefighter History & Recruitment Center is available to set as a static display at public events where the public can walk through the display trailer and view elements of the past as it relates to the fire service. It is recommended that a member of the fire service that has knowledge about the local area stay in the trailer to answer questions and direct potential new members to the right agencies for employment or participation within the emergency services.

The 46' gooseneck style trailer has heating and air-conditioning units mounted on top of the trailer. There are ramp doors on the side and rear of the trailer to allow for physically challenged individuals to access the displays within the trailer. The rear of the trailer has sliding glass doors to assist with the climate control within the trailer.

The trailer is equipped with a 12 Kw generator in the trailer to power the trailer in remote areas. If it is to be used in an area where generator use is not recommended, it has requirements of two 50 amp service connections.
