509 Leave It Better Than You Found It

With youth, high turnover, and less experience testing most Fire Departments in America, how will we affect the future for the better? How can we create the best environment to develop strong fire companies, future leaders, or just great people? The goal of this class is to help guide all formal or informal leaders to create great men and women in the Fire Service.

This 1-day course will be offered Sunday.

Lead Instructor: Chris Logan, Georgetown Fire Department
