Green River Firefighters Association/Kentucky Fire Commission

Ultrasound Health Screening

As a result of our continued commitment to the health and wellness of our members, Green River Firefighters Association and Kentucky Fire Commission will be partnering with United Diagnostic Services to host a health screening event on **February 26th-27th, 2027.** This event will take place at:

Owensboro Convention Center
501 W 2nd Street
Owensboro, KY 42301

UDS will be conducting early detection diagnostic testing, which has proven successful in identifying actionable pathologies to improve overall health as well as early detection for cancer and cardiovascular issues. Early detection has had a significant impact on helping prevent and reverse potential future catastrophic events.

All screenings are performed using ultrasound, making them safe, painless, and non-invasive. The evaluation includes an Echocardiogram, as well as scans of the Carotid arteries, Abdominal Aorta, Thyroid, Liver, Spleen, Gallbladder, Bladder, Kidneys, and Testicles. For females, an External Pelvic scan is also included. The entire exam takes about 30 minutes to complete.

Fasting for at least 8 hours is required for the screening and you must pre-register to participate. Individuals are allowed to drink water during this period. About 1 ½ hours prior to appointment time, start to drink 32 ounces of water so bladder is full at the start of the exam. Be sure to use the email & phone number you'd like to receive updates when registering.

Pre-registration is required. To schedule your appointment:

1. Click the [**Scheduling Link**] or scan the QR Code
2. Select your preferred appointment date and time.
3. Enter your details: first and last name, phone number, and email address.
4. Provide any additional information if required.
5. Complete payment
6. Check your inbox for a confirmation email with further instructions.
